“95 years of experience in the agricultural packaging industry”

LC Packaging is a family business that has been active in the packaging industry for four generations. The company started in 1923 and has expanded considerably with offices and warehouses in over 16 countries worldwide. Our team of dedicated packaging experts has true understanding of the agri business and works closely with our customers to make sure the right packaging is at the right place at the right time.

“We are our customers’ reliable, long-term partner for the best Agri packaging”

Dear reader,

No company can build a reputation on what they are going to do, only on what they have already achieved. We are proud of what we have achieved, but we are so much more proud of the recognition and trust from our customers in the last 95 years.

Looking back, these 95 years could be captured in one word: Quality! Whatever we do, we try to do it right. It is a constant search for excellence, in what we do and what we stand for. Be it the products we produce, the services we offer or the working conditions of our more than 1,000 employees.

As long as we keep this simple word ‘Quality’ close to our heart and work accordingly, we are confident we will be a solid partner. And we will keep investing in our business model; every day, every month, every year. Continuously and persistently.

Thanks to our commitment to quality we are able to support our customers in the agri markets with the best products and services. Our packaging experts understand the market challenges as no other and are dedicated to make sure we can precisely meet our customers’ just-in-time delivery requirements,

especially when the harvest season is in full swing. We are here to support your products!

We thank you sincerely for your interest in our company. You can rely on our commitment and dedication to bring to your agri markets the highest possible quality packaging and service. That’s a promise!

Yours faithfully,

DIRECTOR AGRY PACKAGING

Boudewijn van Fraassen

Approach

Leading since 1923

Experience our inspiring mixture of the tradition of a family business and the fast and flexible support of an energized and specialized organization. We are a proven solid and reliable business partner, with a strong and healthy financial performance.

Over the past 95 years, LC Packaging has become a worldplayer when it comes to the manufacture, import and distribution of agri packaging. We are proud to say that today we are one of the largest packaging specialists in the agricultural sector.

Best people

Our people are all over the world, and we consider them our greatest asset. Our packaging experts fully understand the importance of your business, are committed to quality, and are dedicated to offering you the best solution.

Seasonal flexibility

Besides offering the best possible customer service, we offer a dependable supply of packaging products, especially during your product's seasonal peak times.

04

Innovative approach

We invest strategically in advanced technologies for easier communication, better traceability, faster order processing, which helps us to support you better.

The LC Packaging Store

Our online customer portal offers:

- » Fast and easy online ordering of standard and/or customer specific packaging material
- » 24/7/365 real-time insight in contracts, inventory, order status, deliveries, invoices, etc.
- » Easy access through your iphone, ipad, desktop
- » A fully automated process: always up-to-date, no manual intervention required

Always near

We are European market leader in agri packaging and our products are used worldwide. From out of our offices and over 70,000m² storage space from a large set of warehouses in 16 countries in Europe, Africa and Asia we offer international service with local support.

Quality in Packaging

With an in-house quality department we offer excellence and compliance to a comprehensive portfolio of required quality standards and a focus on extended and improved standards throughout the chain.

Long-term partnership

Our company is all about transparency and trust, and we focus on long-term, mutually beneficial partnerships with our employees, our production partners and our customers.

Solid sustainability policy

We take our responsibility seriously for more sustainability throughout the entire chain and support you in achieving your sustainability goals and to help you gain a higher competitive advantage. We feel responsible for (our) people and we want to minimize our impact on the environment. LC Packaging re-invests almost all of our profit in our company for on-going development of our production locations and offices to ensure we can offer 1,000 high quality local jobs.

Dedicated, exclusive production partners

With own production facilities and our long-term partnerships with exclusive and dedicated production partners, we have full control of the production of our extensive product portfolio. This allows us to be flexible and to offer tailor-made solutions according to our own high standards and personal control of quality.

Global Supplier Code of Conduct

Within the LC Packaging Group we are committed to the highest standards of social and environmental responsibility and ethical conduct and we expect our production partners to do the same. That is why we introduced the Global Supplier Code of Conduct. The code is, among others, based on and inspired by the Ten Principles of the UN Global Compact and refers to internationally accepted principles, such as SA 8000 and OHSAS 18001.

Our production partners for agri packaging have signed off on this code of conduct and are committed to work according to these high standards.

Our broad range of AGRI products

Jute bags

Since 1923 we have been leading the market with 100% biodegradable jute bags. We offer a wide range of bag types in various dimensions and can print them in-house up to 4 colours per side. Either choose the standard bag or our Baxmatic bag for automatic filling.

Net bags

A broad portfolio of knitted (raschel), leno, leno Baxmatic monofilament bags and tubular and extruded netting in various sizes and colors with optional UV stabilisation. We offer netbags with standard or personalized labels.

Woven bags

Woven polypropylene (WPP) is strong, very light weight, breathable, water-resistant and 100% recyclable. Thanks to high quality BOPP printing options and smart product design, WPP bags contribute to a strong brand positioning and operational efficiency.

Ventilated big bags

Our ventilated FIBCs (big bags/ bulk bags) allow for optimal ventilation for improved product preservation. The bags are very strong and ideal for transport or storage of potatoes, carrots, onions, beans, grains, woodlog, nuts etc.

Retail packaging

LC Packaging is a specialist in the field of films and punnets for the retail industry: plastic punnets, POF, BOPP, CPP, film. Our retail packaging contributes to a longer shelf lifetime of your products and gives a better in-store presentation.

Geotextile and technical fabrics

LC Packaging supplies various types of high quality technical fabrics, that are used to protect your crop against adverse weather conditions, harmful insects or pests. We offer crop mesh, shade netting, root control fabric, fleece, and anti-hail and bird cover.

Industries

We Serve

Plastic bags

LC Packaging supplies a wide range of LDPE, HDPE, CPP and BOPP bags in various colors. We print upto 8 colors, and offer several types of perforation. Available either separate, on a block, or on a wicket and in various construction types (such as conical, straight, etc.)

Paper bags

We offer bags in various sizes with high quality printing (up to four colors per side). These bags are extremely strong and can be produced with an internal or external valve. Choose from various bottom types and optional micro-perforation.

Accessories

LC Packaging can supply a range of other products to support your sales activities. You can conveniently add articles such as clipping wire, labels, corner supports, rope, yarns etc, to your order.

Did you know...?

...that we have over 70,000m2 storage space available in over 16 locations in Europe, Asia and Africa? We keep our customers' packaging products on stock in our warehouses, ready to deliver at our customer's request.
