Leading packaging expert for the global potato industry

LC Packaging is the leading industry expert with all types of packaging for seed, table and processed potatoes. We have a proven track record in supporting a few of the largest potato companies in the world in their goal to deliver their customers potatoes in the best possible state.

Over the past 95 years, LC Packaging has become one of the largest world players when it comes to the manufacture, import and distribution of agri products. We are proud to say that we are **Europe's No. 1 in potato packaging!**

supporting your products

Commitment and dedication to deliver sustainable potato packaging

Potatoes help feed millions of people around the world. During transportation and storage, products are subject to all sorts of challenging circumstances. These circumstances can have a negative impact on the product quality and preservation. At LC Packaging we go out of our way to support our customers so that their potatoes arrive at their destination in the best possible condition.

Sustainable packaging:
the only way forward for the
potato sector

Long-term partnerships with
customers, suppliers and
employees

Best service from our specialists
in potato packaging located in

Sustainable packaging: the only way forward for the potato sector

Sustainability is becoming increasingly important: there is a growing demand for sustainable potato packaging solutions offered by companies with the right expertise. At LC Packaging, we take our responsibility for more sustainability throughout the entire potato supply chain seriously. We feel responsible for [our] people and we want to minimize our impact on the environment. Sustainability lies at the core of our values. These are implemented throughout our entire international organization. It is not only reflected by our potato packaging and services, but also by our corporate culture and partnerships.

Sustainability does not have to be expensive. The price differences are minimal and the customer has the certainty that the potato packaging is of high quality and from suppliers who embrace fair trade. We are convinced that this is the only way to do honest business.

Long-term partnership with customers and suppliers

With our own production facilities and long-term partnerships with exclusive and dedicated production partners, we have full control of the production of our extensive potato packaging portfolio. This allows us to be flexible and to offer tailor-made solutions according to our own high standards and personal control of quality.

At LC Packaging we value fair trade and long-lasting relationships with our suppliers: with some suppliers we have decades long partnership! Our focus is on finding partners who have the same corporate values as we do. Consequently, we know what we purchase, where the potato packaging originates from and how our suppliers really operate.

your products

Global Supplier Code of Conduct

Within the LC Packaging Group we are committed to the highest standards of social and environmental responsibility and ethical conduct and we expect our production partners to do the same. That is why we introduced our Global Supplier Code of Conduct. This code is, among others, based on and inspired by the Ten Principles of the UN Global Compact and refers to internationally accepted principles, such as SA 8000 and OHSAS 18001.

Also, our production partners (also for potato packaging) have signed off on this code of conduct and are committed to work according to these high standards.

Best service from our potato packaging specialists in Europe, Asia and Africa

We are the European market leader in agri packaging and our products are used worldwide. From out of our offices and warehouses (with over 70,000m2 storage space) in 16 countries in Europe, Africa and Asia we offer international service with local support.

Our people are all over the world and we consider them our greatest asset. Our packaging experts fully understand the importance of your business, are committed to quality and are dedicated to offering you the best solution for your packaging needs .

At LC Packaging we select the best people: we invest in their personal development to make sure that their job, their passion and interest and additionally, our remuneration policy is above market standards. Consequently, many employees stay with us for many many years.

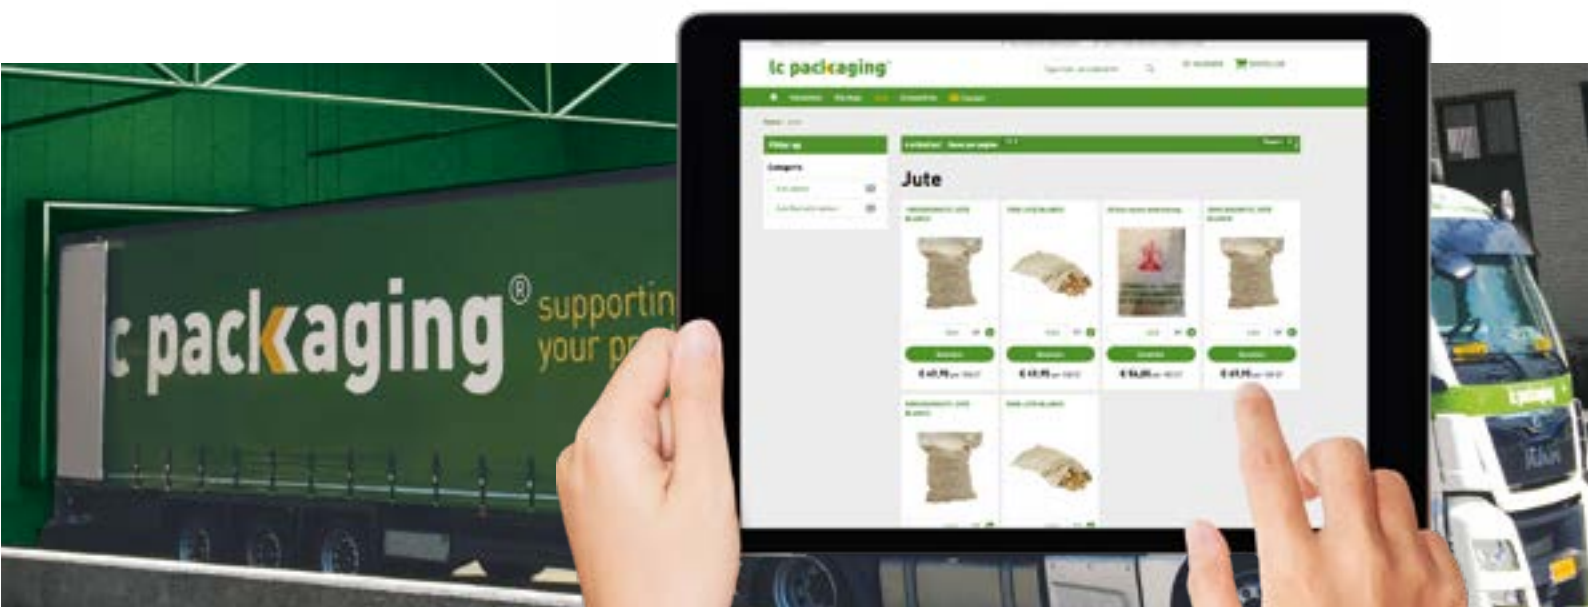

Seasonal flexibility

Besides offering the best possible customer service, we offer a dependable supply of packaging products, especially during your product's seasonal peak times.

The LC online portal for ordering your potato packaging 24/7/365!

We invest strategically in advanced technologies for easier communication, better traceability and faster order processing, which helps us to support your company better.

- » Fast and easy online ordering of standard and/or customer specific packaging material
- » 24/7/365 real-time insight in contracts, inventory, order status, deliveries, invoices, etc.
- » Easy access through your iPhone, iPad, or desktop
- » A fully automated process: always up-to-date, no manual intervention required

Broad range of durable potato packaging solutions

At LC Packaging we offer a broad range of packaging solutions for various requirements in the potato industry. We offer both standard bags as well as tailor made bags that are fully designed to meet our customers' specific packaging needs. Also when choosing for LC potato packaging, our customers are choosing for sustainable potato packaging. Jute bags are solely made of natural ingredients and for centuries this material is considered to be one of the best packaging materials for the transport of potatoes and other types of vegetables.

Our potato packaging can be easily used in automated environment. Because farms are growing in size and yield per acre is increasing, automated packaging processes are becoming more necessary around the globe. Anticipating this, LC Packaging has developed the fully automated Baxmatic concept ten years ago. This process involves the filling and stitching of bags automatically and leads to a high throughput of in excess 1,000 bags per hour.

Why LC

Committed - Reliable - Loyal

Always near

With our offices, own production and storage locations in 16 countries in Europe, Africa and Asia we offer international service with local support.

Leading since 1923

We are a proven solid and reliable business partner with a strong and healthy financial performance, combined with an inspiring family tradition.

Own production

With own production and dedicated production partners we offer tailor made solutions according to our own high quality standards.

Best people

Our people are our greatest asset. Our experts understand your business, are committed to quality and are dedicated to offering the best solution.

Long-term partnership

Our company is about transparency and trust, and we focus on long-term, mutually beneficial partnerships with our employees, production partners and customers.

Quality in packaging

With a dedicated in-house Quality Department we offer quality excellence and compliance with a comprehensive portfolio of required quality standards.

Innovative approach

We continuously invest in our infrastructure, systems and processes to meet and improve our customer experience for today and tomorrow.

Solid sustainability policy

We strive to include all stakeholders in our quest to provide sustainable packaging solutions, while minimising the impact on the environment, the waste of valuable products, while also enriching the communities in which we operate.
