Leading expert in retail packaging solutions

02

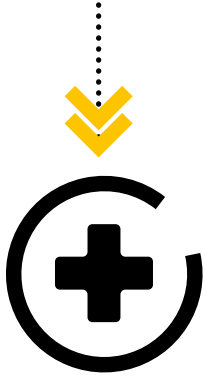

Leading packaging expert for the retail industry

LC Packaging is a family business that has been active in the packaging industry for four generations. We began serving the industry in 1923 with jute bags and have expanded considerably since then, evolving from a packaging material and machinery importer to a manufacturer and distributor with our own production facilities across Europe, Asia and Africa. Today, LC Packaging is a leading packaging expert with more than 1,000 employees in 16 countries.

Benefit from our expertise in packaging for the retail industry!

supporting your products

Leading in quality management

Sustainability in the retail industry chain

Our packaging experts take care of your business

Dedicated account management for an excellent customer experience

LC Packaging is proud of its professional management team, which works closely with the food industry to provide market leading advice and innovation. Our clients benefit from 60 years of experience in Retail Packaging. With our core values in mind, our team will work with production as well as marketing, offering support that enables your business to establish the most economic and reliable packaging solutions. LC Packaging's account management specialists are tailored to your retail business, with key elements including:

- Evaluation of your requirements against technology used
- Recommendation of new solutions
- Definition of cost-effective products
- Environmental supply solutions
- Cost analysis of market products
- Bespoke artwork design service

Extensive network of exclusive, dedicated production partners

Solid and Reliable Supply Chain Management

Effective supply chains give LC Packaging a competitive advantage in the marketplace and help reduce the risks associated with acquiring raw materials and delivering products. Through the implementation of our supply chain management systems, we are able to scientifically reduce waste, overhead costs and shipping delays. The benefits of our systematic approach impact areas ranging from product quality to order turn-around times.

For you, the customer, what does this mean?

- You are able to make use of our vast network of production partners
- A diverse range of retail packaging materials is offered
- Within a constantly changing market place we are equipped to manage your needs within a specified cost structure
- We look after you

Consultancy for in-depth personal advise

Full understanding of your sector and your seasonal requirements.

Consultancy is a service that provides advice to clients in order to help them to solve a specific problem or range of problems within a particular area of business; LC Packaging can offer you exactly that:

- A dedicated and experienced Key Account Manager
- Experience tailored to suit your industry or product
- Continuous monitoring of the retail market, providing you with helpful insights into developments

LC Packaging works closely with the food industry to provide excellent service and product innovation. Our sector-focused management team has a full understanding of our market and seasonal needs, allowing you to focus on your core business.

At LC Packaging we follow a strategy that is not only focused on our product offering but also the people we work with. We work to establish strong partnerships with both our suppliers and our customers, with our Account Managers offering personal care through regular face to face site meetings.

Powerful artwork and reprographics

Take the visual identity of your products to the next level

At LC Packaging we have the ability to offer you a range of services. Our knowledge and experience with design, proofing and printing ensures we match your needs with our capabilities. Our supply partners continually invest in the latest technology ensuring high output, high speed manufacturing whilst minimising cost.

Our ability to manage the process from concept to product, including any promotional needs, ensures a quick turnaround in production:

- Digital artwork design
- Creative design solutions
- Artwork proofing
- Bespoke artwork design service

Leading in quality management

Assuring full compliance to regulatory requirements

Quality is much more than the strength of our packaging: it is the complete package. We are committed to delivering the postal and parcel industry the highest quality packaging and excellent service. Our dedicated quality department runs all aspects of quality of our products, our manufacturing processes and our working conditions. We comply with a comprehensive portfolio of quality management standards and regulations, for example: ISO 9001, ISO 14001 and BRC-S&D.

Sustainability in the retail industry

Packaging done right by taking our corporate social responsibility seriously

Retail companies worldwide are progressively focusing on taking corporate social responsibility initiatives and setting goals for example CO₂ emissions.

LC Packaging supports these companies to meet their CSR strategy and goals and offer partnership for more sustainability throughout the entire chain.

LC Packaging takes CSR very seriously and we are continuously undertaking measurements to further strengthen our own sustainability policy:

- Advanced membership: we follow the UN principles on business and human rights

- Minimal impact on the environment by using fewer resources, less transportation, and a recondition & recycle programme (ISO 14001)

- Safe and healthy working environment for wellbeing of our employees, employee development and creating an environment for gender equality

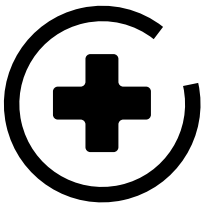

- LC Supports Foundation contributes to improving the welfare and environment of countries where LC Packaging is directly or indirectly active, in the broadest sense of the word

- LC Supplier Code of Conduct: our production partners are committed to the highest standards of social and environmental responsibility

- Awarded with a silver medal for our CSR initiatives through the unique EcoVadis CSR assessment methodology

Why LC

Committed - Reliable - Loyal

Always near

With our offices, own production and storage locations in 16 countries in Europe, Africa and Asia we offer international service with local support.

Leading since 1923

We are a proven solid and reliable business partner with a strong and healthy financial performance, combined with an inspiring family tradition.

Own production

With own production and dedicated production partners we offer tailor made solutions according to our own high quality standards.

Long-term partnership

Our company is about transparency and trust, and we focus on long-term, mutually beneficial partnerships with our employees, production partners and customers.

Best people

Our people are our greatest asset. Our experts understand your business, are committed to quality and are dedicated to offering the best solution.

Quality in packaging

With a dedicated in-house Quality Department we offer quality excellence and compliance with a comprehensive portfolio of required quality standards.

Innovative approach

We continuously invest in our infrastructure, systems and processes to meet and improve our customer experience for today and tomorrow.

Solid sustainability policy

We strive to include all stakeholders in our quest to provide sustainable packaging solutions, while minimising the impact on the environment, the waste of valuable products, while also enriching the communities in which we operate.

Broad range of retail packaging solutions

LC Packaging offer the following products that meet the retail industry packaging demands:

PE / PP Wicketed Bags

LC Packaging is one of the largest stockholders and suppliers of wicketed polyethylene (PE) and cast polypropylene (CPP) bags for the packaging of fresh produce. We hold a wide range of bags at all times and as such we are able to offer a next day delivery service. Alternatively, we are happy to produce bespoke customer bags and hold them in stock for call off over a pre-agreed period.

Characteristics:

- Plain or printed up to 10 colours
- 20 to 120 micron to suit every application
- LDPE, HDPE, MDPE
- Polypropylene, CPP, BOPP
- Compostable, Degradable
- Rounded bottoms
- Laser, punch or micro-perforated
- Zip lock / Grip seal
- Re-sealable / Permanent glue strips
- Captive flap
- Cut corners
- Wicketed / blocked
- Side or bottom gussets
- Processing bags
- Vacuum pouches

Polypropylene Films

Our range of polypropylene films has been designed with packaging efficiency and product presentation in mind. From horizontal or vertical form fill seal machinery to more specialised applications, we are able to offer a range of films to suit your requirements. We offer high quality printing of up to eight colours on most substrates as well as offering films extruded in the customer's colour of choice.

Characteristics:

- Plain or printed up to 8 colours
- Polypropylene, CPP, BOPP
- Anti mist treated
- Laser, punch or micro-perforated
- Micro-1,8,30,60,145,160 (holes/Sq inch)
- 12-40 Micron
- Anti-fog films
- Laminated films
- Freezable films
- Low sealing temperature films
- Paper like films
- Blue extruded films
- WTR and OTR controllable

Tray Liners

Tray liners can be used to extend product shelf life, reduce the risk of contamination, hold in moisture or simply to enhance the on shelf appeal of the product. Our tray liners can be supplied to the customer's exact requirements, from perforations, printing and coloured materials to properties that will enhance the life of the product and accommodate pre packing or extend transport times.

Characteristics:

- Extruded in plain or coloured materials
- Plain or printed up to 8 colours
- Breathable for extended product shelf life
- Loose or on a roll
- Polyethylene / HDPE and Jute
- Low thickness / High strengths
- Perforated
- Tray / box liners and dolav liners
- Shelf life extension options

Cast PP/BOPP Conical Sleeves

Conical sleeves and bags are regularly used to pack lettuce, candy, peppers, flowers and herbs. With eight colour print available, V-seals, open or closed bottoms, perforations and various sizing options, you are guaranteed the best possible presentation for your products.

Characteristics:

- Plain or printed up to 8 colours
- High clarity film for improved product appearance
- Custom shapes and sizes to suit every application
- Loose or on a wicket
- Machine or hand packing
- Fresh produce or flowers
- CPP, BOPP
- Easy slip

Knitted netting

LC Packaging has been involved in the fresh produce industry since 1923. During several decades as a supplier of machinery for fresh produce we ensured that our offering of materials could match the technology available. As a result we became a recognised provider of quality knitted netting.

We continue to offer quality knitted netting for fresh produce, along with an assortment of sundry consumables including clipping wire, clip-to-clip ribbon and wineglass labels.

Characteristics:

- Netting can be supplied in sleeves of 100 to 250 meters
- Netting can be supplied on a roll, per 1.500 meters
- Netting can be supplied loose in bales up to 4.500 meters
- Standard widths are 38cm up to 64cm
- Colours include white, golden-metallic, golden yellow, lemon yellow, orange, red, violet, green and brown; or a bespoke colour
- Netting is made from HDPE

Extruded netting

All of our extruded netting is produced to the highest standard, achieving the highest level of BRC accreditation available. Through investment, innovation and manufacturing excellence we provide an unparalleled level of service. The netting we supply is lightweight, robust and versatile.

All our netting is used to pack a variety of products including fruit, nuts, and vegetables. We ensure that they are designed to run with optimum efficiency on all types of packaging machines – both fully and semi-automatic systems.

Characteristics:

- Suitable for food and non-food applications
- A range of colours and qualities available from stock
- Able to be made bespoke for your application
- Loose or on a reel
- PE or PP
- Varying mesh sizes possible
- Varying widths available

Net on a roll

Also known as Raschel on the roll, LC Packaging has been a leading supplier to the onion, carrot and potato sector for many years. The nets supplied on roll are predominantly for wholesale applications, but in recent years we have produced value pack sizes for 3 to 5 kilo supermarket packs.

Characteristics:

- Nets are supplied on the reel.
- 2.5 – 25kg sizes available
- Different colours in stock and made to order
- With or without branding
- Standard and small mesh sizes
- 1.500 – 3.000 nets on a reel

XMesh

Innovation is core to our mission statement. Over the years LC Packaging has developed in close cooperation with customers and suppliers a range of innovative products that have helped towards a more sustainable supply chain. We are pleased to announce XMesh, a revolutionary product that is lightweight and can be used for various applications.

Characteristics:

- VFFS, Flowrap, Tray Sealing, Resealable bags
- Excellent aeration of packaging
- No moisture or condensation
- Available in various colours or colour combinations
- PE or PP or PET or PLA
- 8 to 40 grams weight
- 150 to 3.000mm width
- 100% recyclability possible through mono material

Sealing substrate, on one or two sides:

- Film made of PP, PE, PET, PLA, non-wovens, laminated paper
